INDEX

	Pages		Pages
January	1–28	July	157–172
February	29–56	August	173–196
March	57–88	September	197–220
April	89–112	October	221–244
May	113–132	November	245–268
June	133–156	December	269–288

Ahago, V.O.; Numerical forecast of the onset of the 1990 seasonal long rains in Kenya, 123
Alves, J.O.S.; An assessment of the surface fluxes from the Meteorological Office numerical weather prediction models. Part II: Heat and fresh water, 59
Analyses and forecasts of fluctuations in the angular momentum of the atmosphere and changes in the Earth's rotation; R. Hide and J.O. Dickey, 22
Andersson, T. and Lindgren, B.; A sea-breeze front seen by radar, 239
Application of satellite infrared and passive microwave estimation techniques to Japan: Results from the First GPCP Algorithm Intercomparison Project; E.C. Barrett and T.J. Bellerby, 34
Appointment of Chief Executive of the Meteorological Office, 57
Are gusts and lulls associated with directionality?; A.J. Baran, 46
Assessment of the surface fluxes from the Meteorological Office numerical weather prediction models. Part II: Heat and fresh water; J.O.S. Alves, 59
Autumn of 1991 in the United Kingdom; G.P. Northcott, 264

Baran, A.J.; Are gusts and lulls associated with directionality?, 46
Barrett, E.C. and Bellerby, T.J.; The application of satellite infrared and passive microwave estimation techniques to Japan: Results from the First GPCP Algorithm Intercomparison Project, 34
Barwell, B.R., see Reviews, 112, 242
Bellerby, T.J., see Barrett and Bellerby
Blackall, R.M.; Some notes on radio sounding in the United Kingdom, 89
Bogren, J., Gustavsson, T. and Lindquist, S.; A description of a local climatological model used to predict temperature variations along stretches of road, 157
Books received, 56, 88, 112, 132, 156, 196, 243

Collier, C.G.; International radar networking, 221
Collinge, V.K., Thielen, T. and McIlveen, J.F.R.; Extreme rainfall at Hewenden Reservoir, 11 June 1956, 166
Conference Report; Seminar on the United Kingdom contribution to the Global Climate Observing System (GCOS), Houghton Lecture Theatre, 285
Correction to Volume 120, page 168, 55

Description of a local climatological model used to predict temperature variations along stretches of road; J. Bogren, T. Gustavsson and S. Lindquist, 157
Dickey, J.O., see Hide and Dickey

Editorial, 173
Extreme rainfall at Hewenden Reservoir, 11 June 1956; V.K. Collinge, J. Thielen and J.F.R. McIlveen, 166

First 50 years in the study of atmospheric dispersion; F.B. Smith, 135
Foreman, S.J.; The role of ocean models in FOAM, 113

Gavine, D.M.; Noctilucent clouds over western Europe during 1990, 53
Gavine, D.M.; Noctilucent clouds over western Europe during 1991, 284
Gustavsson, T., see Bogren, Gustavsson and Lindquist

Hall, C.D.; The use of output from a numerical model to monitor the quality of radiosonde observations, 91
Harker, P., see Reviews, 154
Harrison, M.S.J., see Reviews, 219
Hewson, T.D.; Infrared image of a cloud-head — 27 April 1992 at 1800 UTC, 244
Hewson, T.D. and Gait, N.J.; Hoar-frost deposition on roads, 1, *letter*, 241
Hide, R., see Reviews, 154
Hide, R. and Dickey, J.O.; Analyses and forecasts of fluctuations in the angular momentum of the atmosphere and changes in the Earth's rotation, 22
Hoar-frost deposition on roads; Hewson, T.D. and Gait, N.J., 1
Houghton, Sir John, Retirement of, 29

Incident above Zanjan: R.W. Lunnon, 152
Indian summer monsoon rainfall indices: 1871–1990; B. Parthasarathy, K. Rupa Kumar and D.R. Kothawale, 174
Infrared image of a cloud-head — 27 April 1992 at 1800 UTC; T.D. Hewson, 244
Ingleby, N.B., see Reviews, 172
International radar networking; C.G. Collier, 221 Jury, R.M., see Vermeulen and Jury, 186

Kothawale, D.R., see Parthasarathy, Rupa Kumar and Kothawale
Kroon, L.J.M., see Saraber, The and Kroon

Latest Climate Assessment, 195
Lindgren, B., see Andersson and Lindgren, 239
Lindquist, S., see Bogren, Gustavsson and Lindquist
Lilley, R.B.E., see Satellite and/or radar photographs, 26
Low wind-speed meteorology; F.B. Smith, 141
Lunnon, R.W.; Incident above Zanjan, 152

McIlveen, J.F.R., see Collinge, Thielen and McIlveen

McKenna, D.D., see Reviews, 156
Mansell, R.; letter re hoar-frost deposition, 241
Mansfield, D.A., see Reviews, 195
Meteorological and hydrological aspects of the Battle of Copenhagen, 2 April 1801; J. Neumann, 100
Modern tool for teaching dynamic meteorology; M.J.M. Saraber, T.H. The and L.J.M. Kroon, 260
Monk, G.A.: Synoptic and mesoscale analysis of intense mid-latitude cyclones, 269
Morgan, N.; Numerical weather prediction, 29
Morgan, N.; Ocean forecasting, 58
Morgan, N.; Using satellite images, 31

Neumann, J.; Meteorological and hydrological aspects of the Battle of Copenhagen, 2 April 1801, 100
NOAA use European satellite data during hurricane Andrew; M. Phillips, 288
Noctilucent clouds over western Europe during 1990; D.M. Gavine, 53
Noctilucent clouds over western Europe during 1991; D.M. Gavine, 284
Northcott, G.P.; The autumn of 1991 in the United Kingdon, 264
Northcott, G.P.; The spring of 1991 in the United Kingdom, 130
Northcott, G.P.; The summer of 1991 in the United Kingdom, 192
Northcott, G.P.; The winter of 1990/91 in the United Kingdom, 51
Note from the Editor, 266
Numerical forecast of the onset of the 1990 seasonal long rains in Kenya; V.O. Ahago, 123
Numerical weather prediction; N. Morgan, 29

Objective method for improving the operational performance of a road ice prediction model using interpolated mesoscale output and a templet for correcting systematic error; J.E. Thornes and J. Shao, 197
Objectively analysed cloud immersion frequencies for the United Kingdom; K.J. Weston, 108
Ocean forecasting; N. Morgan, 58
Ogden, R.J.; The PAMPA flights, 257

PAMPA flights; R.J. Ogden, 257
Parthasarathy, B., Rupa Kumar, K. and Kothawale, D.R.; Indian summer monsoon indices: 1871–1990, 174
Persistent hoar frost; W.S. Pike, 165
Phillips, M.; NOAA use European satellite data during hurricane Andrew, 288
Pike, W.S.; Persistent hoar frost, 165
Pike, W.S.; Rime deposition, 217
Pike, W.S.; Three motorway accidents in hail showers on 29 March 1986: A radar study, 84
Pike, W.S., see Reviews, 56, 267

Quality Assurance in the observations area of the Meteorological Office; R.J. Shearman, 212

Reviews
Principles of air pollution meteorology, T.J. Lyons and W.D. Scott (F.B. Smith), 55
Impact models to assess regional acidification, ed. J. Kämäri (F.B. Smith), 55
A field test of thermometer screens, T. Andersson and I. Mattison (W.S. Pike), 56
Prediction and regulation of air pollution, M.E. Berlyand (F.B. Smith), 111
Fractals: endlessly repeated geometrical figures, H. Lauwerier (B.R. Barwell), 112
Theoretical geophysical fluid dynamics, A.S. Monin (R. Hide),154
History of the Commission for Agricultural Meteorology of the World Meteorological Organization, W. Baier, I.G. Gringof and N.D. Strommen (P. Harker), 154
Air traffic and the environment — Background, tendencies and potential global atmospheric effects, ed. U. Schumann (D.S. McKenna), 156
Atmospheric data analysis, R. Daley (N.B. Ingleby), 172
Mid-latitude weather systems, T.N. Carlson (D.A. Mansfield), 195
Mountain weather and climate (second edition), R.G. Barry (T.R. Spalding), 218
Natural weather wisdom, F. Hingston (M.S.J. Harrison), 219
The engineering statistician's guide to continuous bivariate distributions, T.P. Hutchinson and C.D. Lai (D.J. Thomson), 220
The New Scientist *guide to chaos*, ed. N. Hall (B.R. Barwell), 242
Plants and microclimate: A quantitative approach to environmental plant physiology (second edition), H.G. Jones (M.N. Hough), 243
Asymptotic modelling of atmospheric flows, R. Zeytounian (I. Roulstone), 267
The year without a summer?: World climate in 1816, ed. C.R. Harington (W.S. Pike), 267
Rime deposition; W.S. Pike, 217
Roach, W.T.; A short history of the Meteorological Research Flight (MRF) 1942–92.
Role of ocean models in FOAM; S.J. Foreman, 113
Roulstone, I., see Reviews, 267
Rupa Kumar, K., see Parthasarathy, Rupa Kumar and Kothawale

Saraber, M.J.M, The, T.H. and Kroon, L.J.M.; A modern tool for teaching dynamic meteorology, 260
Satellite and/or radar photographs
12 November 1991; R.B.E. Lilley, 26
Sea-breeze front seen by radar; Andersson, T. and Lindgren, B., 239
Shao, J., see Thornes and Shao
Shearman, R.J.; Quality Assurance in the observations area of the Meteorological Office, 212
Short history of the Meteorological Research Flight (MRF) 1942–92; W.T. Roach, 245
Singleton, F.; United Kingdom synoptic meteorological observing — past, present and future, 205
Smith, Dr F.B., retirement, 133
Smith, F.B., see Reviews, 55, 55, 111
Smith, F.B.; Low wind-speed meteorology, 141
Smith, F.B.; The first 50 years in the study of atmospheric dispersion, 135
Some notes on radio sounding in the United Kingdom; R.M. Blackall, 89
Spalding, T.R., see Reviews, 218
Spring of 1991 in the United Kingdom; G.P. Northcott, 130
Summer of 1991 in the United Kingdom; G.P. Northcott, 192

Synoptic and mesoscale analysis of intense mid-latitude cyclones; G.A.Monk, 269

The, T.H., see Saraber, The and Kroon
Thomson, D.J., see Reviews, 220
Thornes, J.E. and Shao, J.; Objective method for improving the operational performance of a road ice prediction model using interpolated mesoscale output and a templet for correcting systematic error, 197
Three motorway traffic accidents in hail showers on 29 March 1986: A radar study; W.S. Pike, 84
Tropical cyclones in the south-west Indian Ocean — track prediction amd verification 1989–91; J.H. Vermeulen and M.R. Jury, 186

United Kingdom synoptic meteorological observing — past, present and future; F. Singleton, 205
Use of output from a numerical model to monitor the quality of radiosonde observations; C.D. Hall, 91
Using satellite images; N. Morgan, 31

Vermeulen, J.H. and Jury, M.R.; Tropical cyclones in the south-west Indian Ocean — track prediction and verification 1989–91, 186

Weston, K.J.; Objectively analysed cloud immersion frequencies for the United Kingdom, 108
Winter of 1990/91 in the United Kingdom; G.P. Northcott, 51
